UNIVERSAL

DISCLAIMER

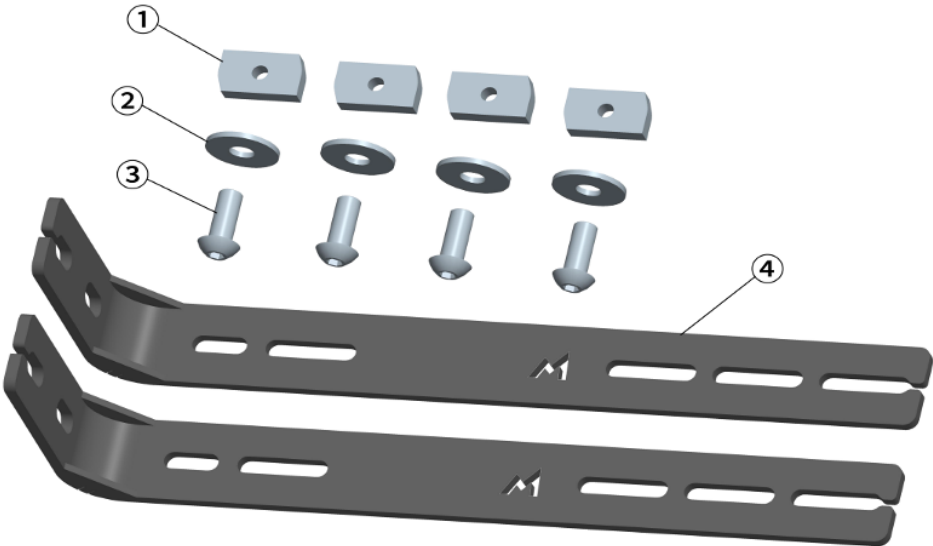

All Instructions are provided for information purposes only and are intended to be utilised by a professionally qualified mechanic. While reasonable efforts are made to ensure the Instructions are up to date, the end-user of these Instructions should seek independent professional advice and services before relying on any of them. The Instructions must be carried out with the requisite qualifications, skills, and experience to perform such services safely and in compliance with all Applicable Law. Where the instructions are not carried out by an appropriately qualified mechanic then the manufacturer will be held harmless save for any liabilities that cannot be excluded at law. Fitting this item to your vehicle may constitute a vehicle modification and therefore we strongly recommend that you check the product complies with local laws and legislation and always inform the vehicle's insurance company accordingly. Allmakes PR2 4x4 Ltd, DQ190 Didcot Quarter, Sutton Courtenay Rd, Sutton Courtenay, Abingdon, Oxon, OX14 4TE, England

NOTES

Terrafirma awning mounting brackets are designed to attach to any flat surface, ideally using a T slot system and in particular TF8005 and TF8006 alloy roof racks.

- INSTRUCTIONS**
- Slide the threaded nut plate into the slot on the roof rack, position the awning brackets so that the awning is situated in the optimal position on the rack.
 - Loosely bolt the brackets to the rack and using the fixings typically supplied with the awning loosely attach the awning to the brackets.
 - When you are happy everything is aligned tighten all the fixings.

No.	Description	QTY
