Diagram 8 illustrates the process of attaching the side rail (16) to the bed frame (15). The main view shows the side rail being aligned with the frame, indicated by arrow 4. The rail is then secured to the frame using a bolt (12), a washer (14), and a nut (13). A circular inset provides a detailed view of the assembly steps:

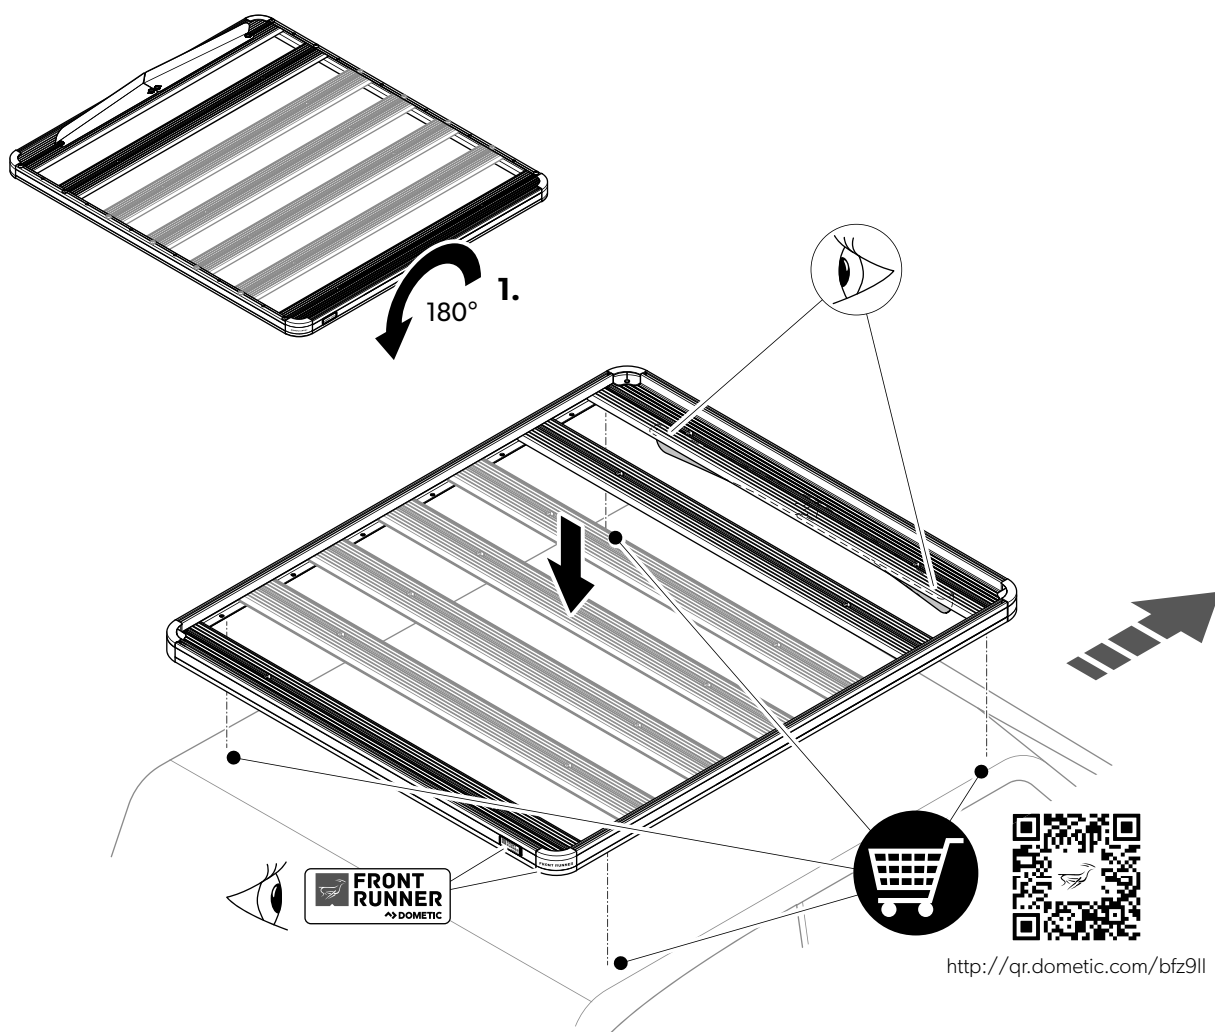

1. Insert the bolt (12) through the side rail (16) and the frame (15).
2. Place the washer (14) and nut (13) on the bolt.
3. Tighten the nut (13) by turning it three times (3x), as indicated by the circular arrow.

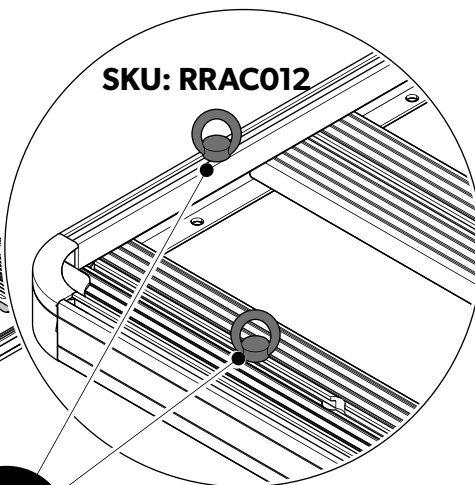

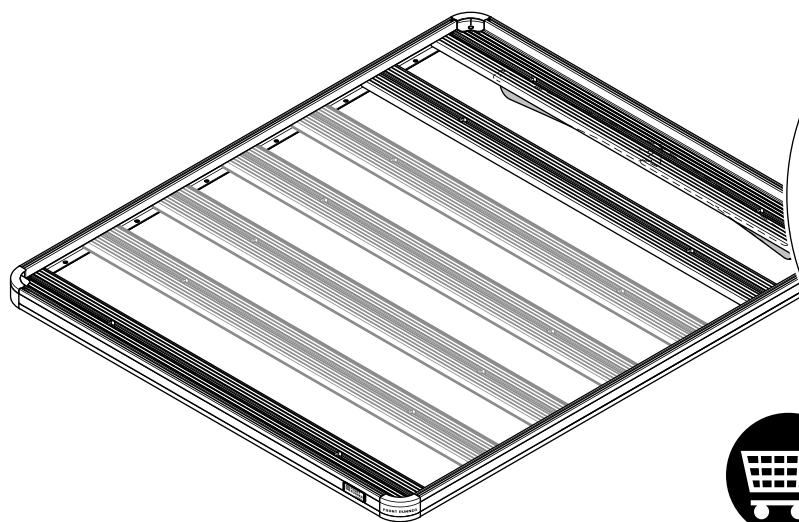

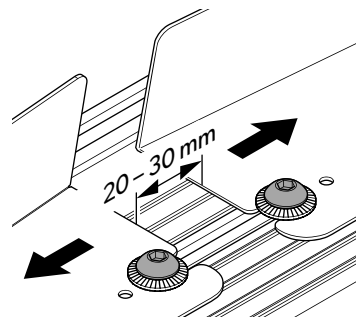

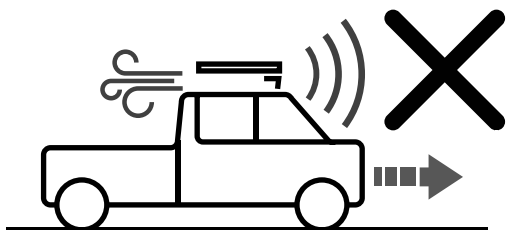

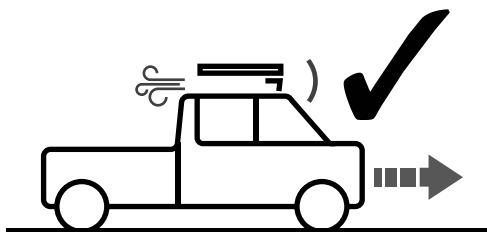

A checkmark icon indicates that the assembly is complete and correct.
